DETAILED ACTION

Allowable Subject Matter

1. Claims 1-21 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. As noted in the applicant's arguments filed with the RCE, examiner was previously reading the claims to be written to (or able to be read upon by) a completely electronic system where the electronic models are changed and updated as the parts were built. In a telephone interview with applicant's attorney it was determined that appropriate corrections would be made to the claims to make it more clear that the changing model is based upon the physical part as it is being created or changed and is not a fully electronic model. While FR 2 617 306 A1 (cited in IDS of 2/22/2005) shows an electronic model based upon a physical model similar to the current invention, neither this reference taken alone or in combination with the prior art of record disclose repeatedly comparing the model to an authority model. It is this comparing step, in combination with the remaining elements and features of the invention, that the applicant's invention defines over the prior art of record.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
